CRKN institutes affiliated corresponding
authors**

Key information

1. How do we determine eligibility of the article for the CRKN agreement?

- The submission date of the article should be on or after January 1, 2021
- The corresponding author must be affiliated with participating in the CRKN agreement
- The article must be from a participating journal

2. Why do we use submission date as the eligibility criteria?

- The submission date is the only stable point the publishing process; acceptance and publication dates vary based on the journal processes
- The author controls the submission date. This gives the author not just control, but also transparency and predictability regardless of how long or short the journal the review and publication process runs

Key information

3. Role of the institutional librarian in the Elsevier OA Platform (EOAP)

- By the time the article is in your EOAP, we have published the first version of the article in ScienceDirect (within 48 hours of acceptance)
- You therefore do not approve the publication of the article, you validate whether the corresponding author can make use of the discount under the agreement
- As a librarian, you have full rights to decide whether the author is eligible for the agreement
